USAGE Hungarian Reports

Ref: MGLA-5115, WGXW-7912

1. Your attention is directed to the fact that the reports section also has given a very low evaluation to the USAGE reports forwarded as enclosures to MGLA-5115. That section's comments are similar to those of Salzburg (WGXW-7912), indicating that the information produced by the Hungarian group is outdated, of small value, thoroughly known, vague, etc. Without exception, such comments are applicable to MOPs 19, 20, 24, 25, and 29.

2. With regard to USAGE reports in general, we would like to request that each report be assigned an MOP number (i.e. in addition to the P designation at present prefixed to the report number). Such processing by Pullach will aid reports handling here immeasurably, and in view of the greatly reduced number of USAGE reports should, we hope, be feasible.
